Partner Activation Process

A light, low-touch approach to onboarding and activating early-stage partners for the PartnerPod™ MVP pilot program.

Year 1 - Pilot & Proof 2025

Activation Overview

Our partner activation process is designed to be efficient and value-driven, focusing on getting partners operational quickly while providing the right level of support.

3-5 Partners onboarded during initial pilot phase

4 Week certification process in sprints

2 Levels of delivery support available

Activation Steps

Initial Onboarding

- Partner application and screening
- Welcome kit and platform access
- Introduction to PartnerPod™ methodology
- Assignment of partner success contact

Partners receive access to our digital resources within 24 hours of approval

Certification Sprints

- 4-week sprint-based certification process
- Weekly virtual check-ins (30 minutes)
- Self-paced learning modules
- Practice client scenario exercises

View certification materials in Partner Workspace

Resource Kit Access

- Client-facing templates and presentations
- Sprint methodology documentation
- Process flow diagrams and worksheets
- Branding and marketing materials

Explore MVP Flow Diagrams

Delivery Support Options

Self-Directed
Partners deliver independently with access to resources and optional check-ins

Co-Delivery
PartnerPod™ team provides hands-on support for initial client engagements

Support level can be adjusted based on partner experience and client complexity
